35, East Raza bazar, Farmgate, Dhaka

Career Objective

I'm a Data Analytics enthusiast who enjoys finding patterns in numbers and turning them into stories businesses can act on. With hands-on experience in Power BI, SQL and Excel, I've delivered projects that improved efficiency, reduced costs, and boosted sales. Now, I'm looking for an opportunity to grow while helping organizations make smarter, data-driven decisions.

TECHNICAL SKILLS

- **Analytics Tools:** Excel (Advanced), Power BI, Tableau, Looker Studio, Google Sheets
- **Programming:** SQL, Python (Pandas, NumPy)
- **Other:** Data Cleaning, Visualization, Data Storytelling, Cross-Team Collaboration

PROJECT

Management Service Report in Power BI - [\(Preview -link\)](#)

Built service performance dashboard for customer operations.

Insight: Detected declining response times in Q3, prompting staffing changes that improved retention.

Website Analytics Dashboard in Power BI - [\(Preview -link\)](#)

Tracked traffic sources, user engagement, and conversions.

Insight: Showed paid ads underperformed vs. organic traffic, leading to better budget allocation and ROI.

Large Cargo Shipments & Logistics Analytics - [\(Preview -link\)](#)

Designed dashboard for shipment volumes, costs, and delays.

Insight: Found 18% of delays came from a single route, leading to cost-saving rerouting.

Logistics Transportation Management Analysis - [\(Preview-link\)](#)

Analysed delivery costs and timelines across vendors.

Insight: Found Vendor B was 12% faster but cost 8% more, supporting cost-speed trade-off decisions.
